Sumitomo Riko Group publishes Integrated Report 2025 **- Creating value by fusing technical might with meaningful dialogue -**

Sumitomo Riko Co. Ltd. (Headquarters: Nakamura-ku, Nagoya-shi; President & CEO: Kazushi Shimizu) has published the Integrated Report 2025 to help all stakeholders deepen their understanding of efforts made by the Sumitomo Riko Group to enhance corporate value over the medium to long term.

The report provides updates on our efforts to achieve the Sumitomo Riko Group Vision (2029V)—our management vision for 2029, which marks the centenary of the Group’s founding—and the progress of the 2025 Sumitomo Riko Group Mid-term Management Plan, which ends in FY2025.

For the report, our president and an outside director conversed about "Creating value for a sustainable society", which is one of the key directions in the 2029V. In the dialogue, they agreed that, to sustain value creation, our technical strengths must continue to be used to improve product quality and earn trust and that we must maintain a corporate culture that encourages open dialogue driven by opinions from the front line. The report also features initiatives aligned with the Group's policy of co-creating value with external partners to address social challenges. The report shows that we have further enhanced our approach to, and data on, intellectual property—the foundation of our value creation.

Heading toward our centenary in 2029, to help us become a Global Excellent Manufacturing Company needed the world over, we will continue to deepen dialogue with all stakeholders and proactively disseminate information.

<Outline of Integrated Report 2025>
